LUXURY DIESEL PUSHER

PRODUCT GUIDE

CELEBRATING OVER
50 YEARS
OF MOTORCOACHING

SPORTSCOACH

EVOLUTION TO REVOLUTION.

THE ALL-NEW SPORTSCOACH.

In 1968, the evolution of Sportscoach of America began, and for over five decades has emerged as it's name implies, one of the sportiest rides and looks on the road. Throughout the 1980s and into the 1990s, Sportscoach continued it's evolution into the new millennium as the most luxurious and best value-priced diesel pusher in it's class. The all-new 2021 Sportscoach has revolutionized the market with the best floorplans, quality, price and exclusive features.

Join the revolution today! Call **800.353.7383**, or visit **coachmenrv.com** to see photos and floorplans and find your nearest Sportscoach dealer to schedule a test drive.

SPORTSCOACH LUXURY DIESEL PUSHERS

STRAIGHT RAIL SERIES (SRS) SELLING FEATURES

SportsCoach SRS Diesel Coaches are Standard Equipped with the Following:

1. Big Block Cummins (B6.7)
2. 340 HP Freightliner Chassis (not a 300HP like our competitors; Palazzo, Pace Arrow)
3. 6 spd. Allison Transmission (2100 & 2500 Series)
4. GVWR- 26,000# & 29,410#
5. 22.5" Tires
6. Dual Fuel Tanks (90 gal)
7. 8,000# Hitch
8. 700# of Foot Torque
9. 2,000 Watt Inverter w/ 4 Coach Batteries and 2 Chassis Batteries
10. Standard 6.0 Onan Diesel Generator on a Slide-Out Tray (not a 5.0 with no slide tray)
11. 17" Bus Style Mirrors (not 13" or 14" side mounted)
12. Exterior Side Mounted Cameras (mounted low for best visibility -- not high and in the side mirrors)
13. Double Laminated Walls/Roof and Floor (pinch-rolled and vacuum bonded)
14. One-Piece Rolled Fiberglass Roof (not a TPO roof)
15. One Level Floor Through-Out the Entire Coach (no step up into the rear bathroom)
16. Noble Select High Gloss Fiberglass Gelcoat (3-year wall warranty w/AZDEL substrate)
17. Sikkens Brand Paint (4-6 Layers of Sikkens) Plus 2 Clear Coats (the same paint used on Mercedes vehicles)
18. Sachs Shocks (custom tuned; used on Maserati, Rolls Royce)
19. AZDEL Composite Sidewall and Roof Construction (eliminates the threat of rot, mold, mildew, delamination, formaldehyde off-gassing)
20. Full-Size Aluminum Slam Latch Baggage Doors with 1.5" Bulb Seal
21. The Best Construction and Quality in the Industry!
22. No Cloned or "Sister" Products (no competition next door or up the street)
23. Coachmen Does NOT do Business with Camping World Stores (no "back-dooring" from another location)
24. Coachmen is One of the Most Recognized Names in the Industry and Has a Long History of Success Dating Back to 1964!

BUNKS

OFFICE

WARDROBE

NEW BUNK - OFFICE – WARDROBE
(376ES & 410ES)

Outside Kitchen Option:
(339DS, 365RB, 376ES)

COACHMEN EXCLUSIVE – COACH-PAP STATION

Our C-Pap Station can be plugged in at the overhead cabinet. The hatch located on the bottom side of the cabinet allows for hoses to be dropped down from above.

COACH-CAMP™ PACKAGE

PATIO SIDE LP QUICK CONNECT

Quickly connect your portable gas grill with the quick connect located just behind the rear tires on the patio side.

ROOF MOUNTED SOLAR PANEL

Each coach is equipped with a 125 Watt solar panel (upgradable to 265 Watt with existing control box).

SATELLITE PREP

Each coach is equipped with in-motion satellite prep.

AWNING SPEAKERS (if Equipped)

External speakers are built into the patio awning arms allowing you to have added external sound in the patio area. Great for Tailgating!

INDUSTRY LEADER IN BEING FIRST-IN-LINE AND FIRST-IN-MIND!

countertops and
sink covers.

SPORTSCOUCH

INTERIOR

Upgraded and very fashionable furniture packages are standard in every Sportscoach.

LG HI-MAC kitchen countertops with décor-specific matching to the floors and shower walls. Look close as some competitors use a thermo-foil countertop in the kitchen.

Each galley comes with a huge waterfall “Farmer’s Sink”, custom spring chef’s choice faucet and pop-up USB charge ports along with a FULL color-coordinated backsplash.

LED lights throughout are much more efficient and cool to the touch. Also standard on every SportsCoach is the King Jack Television antenna which will pull in many digital channels.

CONNEX televisions are standard in the living room, bedroom and exterior. While most manufacturers use off-brand products.

The VERY popular overhead bunk is standard on all models. Easily drops down into a bunk with 600 lb. rating. It can also be used as extra storage like a dropdown pantry! Great place to store valuables and can be locked for security.

The front windshield has a POWERED solar and privacy screen. Manual ones are installed throughout the rest of the coach. Don’t be fooled by competitors that only offer privacy shades or curtains!

The 10.1” Axxera dash radio w/Car Play Auto-link and Logo display.

STELLAR QC Quick Charge – USB charging on dash ports.

INTERIOR

Heat pumps

- 15,000 BTU A/C's with Heat Pumps are Standard in the front and rear.
- A Heat Pump will heat the motorhome without having to run the L/P furnace
- Provides heat for the motorhome when the outside ambient temperature is above 38° to 40°

FIREPLACE:

The fireplace acts as a space heater and runs off of electric.

Provides up to 5,000 BTUs

1500 Watts

Runs off of 120V, 60Hz

Self Closing Drawer Guides

- Drawers will not shut violently decreasing chance of damage
- Doors lock stronger when close and decrease the chance of flying open while in transit

Power Theater Seating

- Power Theater Seating is Optional
- Equipped with massage, heat and recline functions.
- Within the center console are with USB ports and a place to put TV remotes.

EXTERIOR

Solar

Each SportsCoach has a 125-Watt solar panel on the roof

This provides 8-12 amps of power per hour

Customers can upgrade to 300-Watt panel aftermarket

Bulk Charge, battery voltage has not yet reached boost voltage and 100% of available solar power is used to charge the battery

Boost Charge, when the battery has recharged to the boost voltage setpoint, constant – current regulation is used to prevent heating and excessive battery gassing.

Float Charge, after the battery is fully charged in Boost voltage stage, the controller reduces the battery voltage to Float voltage set point. When the battery is fully recharged, there will be no more chemical reactions and all the charge current transmits into heat and gas at this time.

KING Jack – digital HDTV antenna system

Wider reception range

- Less directional than traditional RV antennas to provide broader reception coverage

Greatly improved UHF reception

- Superior reception of UHF signals where over 80% of new DTV channels are broadcast, also offers great reception of remaining VHF channels

Fixed height- 8.5" tall

- No need to crank up, can't forget to crank down
- Not affected by ice or snow build-up on roof
- Lower than A/C unit or satellite dish
- Compatible with mobile DTV reception

Environmentally protected

- No periodic lubrication of roof mounted components
- No exposed coaxial cables or connectors

2 year parts, 1 year labor warranty

Adjustable for different roof thicknesses

- 1" to 8" roofs without any cutting or gluing

Compact, aerodynamic design

- 70% smaller and lighter than Batwing antennas

In order to get Radio or TV reception your booster must be turned on at your control monitor panel

Floor

5-Layer Laminated Construction

1. Galvanized steel underbelly

- Coated with Zinc Oxide to prevent metal from rusting and is harder to scratch
- Helps keep rodents and other pests from gaining access to interior

2. 1½" Welded tubular steel framing

- Stronger than aluminum (aluminum is a low-density metal and when used in structures it is more prone to vibrations and bending compared to steel)

3. 1½" High compression block foam insulation

- Increases R-Value and insulation of motorhome. Thicker block foam than many other manufacturers providing better insulated RVs

4. ½" floor decking

- 2 layers of ¼" decking with staggered seams
- Staggering seams prevents dead spots and air gaps since no seams run through entirety of floor

5. Linoleum (SHAW Flooring)

- Slip Resistant
- Stain Resistant
- Cold Crack Resistant
- Resistant to Mold and Mildew

If Our Walls Could Talk

Starts with **Noble Select** Sidewall gel coat exterior, which is thicker than most competitors and offers a three-year warranty through our supplier...

Our Walls are Vacuum-bonded AND pinch-rolled for maximum adhesion!

Within the walls, the **Noble Select** is adhered to **Azdel** composite panels, which are a blend of polypropylene and fiberglass...

Azdel is...

- HALF the weight of wood!
- IMPERVIOUS to water!
- FORMALDEHYDE free and odorless!
- THREE times the insulation of a wood panel!
- RAISES the R-Value 2 points!
- ABSORBS sound for a quieter ride!
- More IMPACT resistance – tends to flex rather than staying rigid so it doesn't crack
- NOT WOOD – wet wood causes panel delamination and Separation

Aluminum structure is DOUBLE-WELDED at the joints!

Metal EGS Backers for secure anchoring points of cabinets

Roof

5-Layer Laminated Construction

1. **Interior wallboard**
2. **Rigid polystyrene foam insulation**
 - Virtually impervious to moisture
 - Provides great insulation properties
3. **Aluminum rafters**
 - Crowned for controlled water run off
 - Can withstand considerable amounts of weight
 - Impervious to water damage
4. **Azdel Roof Decking**
 - Strengthens roof
5. **One piece Fiberglass roof**
 - Easy to clean
 - No seams run down the middle
 - Long lasting
 - 1 Year Warranty on skin

Sidewalls

5-Layer Laminated Construction

1. **Fiberglass exterior skin**
 - Noble Select High gloss sidewall with gel coat
 - 3 Year warranty
2. **Azdel composite substrate backer**
 - 50% lighter than wood
 - Made in the USA
 - Impervious to water, rot, or mold damage
 - 3X the insulation value of wood
3. **1½" High compression foam insulation**
 - Increases R-Value and insulation of motorhome. Thicker foam than many other manufacturers providing better insulated RVs
4. **1½" aluminum framing with electroplated galvanized steel backing**
 - Aluminum framing around door and windows
 - Electroplated galvanized steel backing provides anchoring for cabinets and other heavy objects hung from interior of the sidewall
5. **Interior décor wallboard**
 - Residential looking

Azdel Composite Panels - Key Features			
 Weight Matters™ 50% Lighter Than Wood for Lighter RVs	 Let It Rain™ Impervious to Water: No Rot, Mold or Water Damage	 from Sweats to Chills™ 3X the Insulation Value of Wood	
 Odorless, Formaldehyde Free	 Sound & Energy Absorbing for Quieter RVs	 Impact & Puncture Resistant: Stronger Sidewalls Help Prevent Damage	

CoolStream Ducting

The SportsCoach comes standard with dual 15,000 BTU A/Cs with heat pump air conditioning units, and a 6K or 8K diesel generator.

The SportsCoach has CoolStream® residential ducting. This is an air conditioning system that is ducted through the crowned, vacuum-bonded roof. The system is insulated ductwork with an antibacterial coating that resist mold and mildew build-up. Radius corners provide maximum efficiency

Other Motorhome manufacturers utilize molded block Styrofoam insulation for their airflow. Styrofoam is comprised of thousands of miniscule circular beads that have microscopic pores. Over time, those pores will accumulate dust particles. Air conditioning is nothing more than displacing moisture from the inside of the coach and transferring it to the outside which means moisture flowing freely through the coach and interacting with dirt and dust. Over time, this can have an adverse affect, especially for customers that are very sensitive to allergies.

Coachmen Ducting

Competition Ducting

STANDARD HEAT PUMPS

The reversing valve Rotates 90°. This changes the direction of the flow of the refrigerant. It goes in the opposite direction and this is the reverse of the cooling cycle. Instead of absorbing heat from inside the motorhome it absorbs heat from the air outside the motorhome and transfers that heat to the indoor air. Now the indoor coil has become Condenser and the outdoor coil has become Evaporator. Notice that the heat isn't generated by a gas furnace. It is just moved (or pumped) from the outside air to inside the motorhome. This is why the Heat Pump is so popular in moderate climates. It also functions effectively in colder climates when the outside temperature is 40° or warmer. You don't need to operate the furnace when the weather cools off. Because of the reversing valve you can use the same electric system as both an air conditioner and a heater!

HEAT PUMP EFFICIENCY

AUTO DEFROST AS LOW AS 25F

- Keeps the heat pump operating as low as 25F outdoor air temperature
- Assures any ice build up on the heat exchanger will be cleared off by periodically cycling the A/C unit
- With this **reverse cycle auto defrost algorithm**, the heat pump continues to supplement heating until an outdoor temperature of as low as 25F is reached

Coachmen Digital Owner's Manual

Coachmen

ACCESS YOUR OWNER'S MANUAL ON OUR WEBSITE OR MOBILE APP!

Customer Satisfaction is our #1 Priority. With that in mind, we have created an *interactive owner's manual* to enhance your ownership experience.

YOUR INTERACTIVE OWNER'S MANUAL FEATURES INCLUDE:

- A Convenient Means to Get Information About Your Product... Immediately
- Access the Entire Owner's Manual & Much More... Anywhere, Anytime
- How-to Videos & Comprehensive Individual Component Manuals
- Live Search Box & Favorites Settings for Quick Reference
- View it Off-line After the Initial Download
- Product Warranty Information

MOBILE
You are on-the-go. Your owner's manuals should be too.

DYNAMIC
Instant updating means your manual is always current.

LIVE SEARCH
The information you're looking for, right at your fingertips.

ACCESS YOUR OWNER'S MANUAL TWO WAYS:
Online at www.coachmenrv.com/owners or by downloading the *Coachmen RV Owner's Guide App* from Google Play or App Store on your mobile device.

Owner's Manuals & Product Warranty also available via:
Forest River Owner's Relations
423 N. Main St., Middlebury, IN 46540

MOBILE APP FEATURES

Our owner's manual apps offer a convenient way to get information about your product, immediately. These include:

- The Entire Owner's Manual and More Right From Your Mobile Device
- Available on Android and Apple Devices
- Viewable Offline After Initial Download*
- Sorted by Product Type and Year
- Interactive Table of Contents
- Live Search Box
- Set Favorites for Quick Reference
- Accessible Component Manuals for Download
- How-To Videos

 Forest River is the **ONLY MANUFACTURER**** to offer interactive owner's manual apps!

* Component manuals and YouTube videos require internet connection.

HOW-TO VIDEOS

Our how-to videos provide answers to common questions:

- Water Tank Levels
- Connecting City Water
- Deodorization
- Electrical System
- Emptying Holding Tanks
- Filling Fresh Water Tank
- Heating and Cooling
- Hitching Your Fifth Wheel
- Hitching Your Trailer
- Pop Up Camper Setup
- Sanitizing the Water System
- Slide Room Operation
- TV Antenna and Cable
- Waste Water System
- Water Systems Overview
- Winterization

... In addition to hundreds of videos dealing with component use and maintenance, linked directly through YouTube.

SafeRide RV provides the Roadside Assistance Program for Forest River RV product lines including Coachmen RV's SportsCoach.

**UNLIMITED
ROADSIDE ASSISTANCE
BENEFITS FOR YOUR RV**

ALL INCLUSIVE UNLIMITED RV COVERAGE

NO PROGRAM OFFERS MORE PROTECTION WHEN YOU'RE ON THE ROAD.

Your membership covers you, a spouse or significant other, and children age 24 or younger licensed to drive your RV or other owned vehicles. SafeRide RV Motor Club's membership includes emergency roadside assistance and concierge services that you can use both on and off the road. We'll guide you to the best campsites, make your dinner reservations, and refer you to exciting, local activities.

Towing

Towing your disabled vehicle to the nearest qualified repair facility.

Jump-Starts

A jump-start for your vehicle's dead battery or a tow to a qualified repair facility.

Tire Assistance

Changing flat tires using a mounted and inflated spare tire, delivering comparable tires to disablement sites, or towing vehicles to a tire facility. The cost of a delivered replacement tire, alignment, mount and dismount, and balancing is not covered. Customers are responsible for all charges related to on-site repairs, including but not limited to parts and labor costs.

Delivery of Fuel and Emergency Fluids

Delivering fuel, oil, and water, as necessary, to remedy disablements.

Customers are responsible for the cost of fluids.

Locksmith / Lockout Service

Providing locksmith services, opening locked vehicles, and/or obtaining replacement keys. Customers are responsible for all charges related to on-site repairs, including but not limited to parts and labor costs.

Winch Out

For RVs that can be accessed from an established, maintained road, highway, thoroughfare, or street.

Technical Support

Features 24/7 technical assistance from our staff of RVIA/RVDA and ASE Certified Technicians, who speak directly with customers to troubleshoot operational issues. Should you need emergency roadside assistance, our vast network of providers offers a wide range of services to handle their unique RV.

RV Mobile Mechanic

Dispatching of a mechanic to the site of mechanically-disabled vehicles. Customer is responsible for all charges related to on-site repairs, including but not limited to parts and labor costs.

Trip Routing

Provide member with information, maps, trip itineraries, discounted hotel reservations, and discounted automobile rental services. Ten business days advanced notice is required for customized trip routing.

Concierge Services

Access to a full range of services to make life easier, including car rental reservations, emergency return travel arrangements, road closure warnings, RV campground referrals, and more.

Trip Interruption

In the event of a RV mechanical breakdown while more than 200 miles from home, customers will be reimbursed up to a certain amount for lodging and meals while the vehicle is kept for repairs at a licensed repair facility.
